

Safe Mama

2008 Sunscreen Edition!

Burt's Bees: Chemical Free

Active Ingredient: 8.58%

Titanium Dioxide

Price: \$14.99

EWG's Rating: 3

Statia Says: I wasn't really that impressed with this stuff. It was immediately cakey upon contact with the skin, and yet, I still felt really sticky. I felt gross all day.

Jason's Sunbrella's Minerals

Active Ingredients: 8% Titanium Dioxide, 2.5% Micronized Zinc Oxide.

Price: \$10.99

EWG's Rating: 1

Kathy Says: I really like the way this goes on, and the scent is beachy, not chemical smelling. It reminds me of old school Coppertone. I use this on myself too.

California Baby SPF 30 (everyday & bug blends)

Active Ingredient: 18%

Micronized Titanium Dioxide

Price: \$17.99

EWG's Rating: 1

Kathy Says: CA Baby goes on thick and works well but it's sticky.

Statia Says: We have the bug blend and it goes on well, not as sticky, but it has a strong smell. My second go to sunscreen.

TruKid Sunny Days Everyday Mineral Sunscreen

Active Ingredient: 10% Titanium Dioxide

Price: \$14.00

EWG's Rating: 2

Kathy Says: TruKid smells great, is not sticky at all and comes with a handy pump.

Statia Says: This is my new favorite. It smells great, and absorbs perfectly! I go for this before any other sunscreen.

Weleda Children's SPF 18

Active Ingredient: 7.6% Titanium Dioxide, .4% Zinc Oxide.

Price: \$15.00

EWG's Rating: No Data.

Statia Says: Neither of us has tried this sunscreen yet, however by the ingredients listed, we feel it makes the list and is considered one of the safer sunscreens out there.
